ABOUT THE EDUCATION SYSTEM

IN PRIMARY SCHOOLS

IN MLADÁ BOLES LAV

FOR PUPILS AND THEIR PARENTS WITH A DIFFERENT MOTHER TONGUE

INFORMATION BROCHURE ABOUT THE EDUCATION SYSTEM IN PRIMARY SCHOOLS IN MLADÁ BOLESLAV

FOR PUPILS AND THEIR PARENTS WITH A DIFFERENT MOTHER TONGUE

Dear parents, dear children,

In this brochure, you will find basic information about the Czech school system in a clear, condensed form to help your better navigation in a new school environment and to enhance your understanding of what you and your children will be facing and what we can look forward to together.

You will also find information about all primary schools in Mladá Boleslav, a glossary of commonly used terms that may be new to you as foreigners or have a different meaning than in your home country.

We hope that this information will help you to integrate your children more effectively and will ensure the best possible communication between you and the school.

Our primary goal is a mutual satisfaction, understanding, and above all, the success of your children.

We look forward to seeing you in the classroom.

Mgr. Daniel Marek
Deputy Mayor of Mladá Boleslav

Mgr. Petr Dostál
*Head of the Department
of Education, Culture and Sports*

BASIC INFORMATION ABOUT THE SCHOOL SYSTEM IN PRIMARY SCHOOLS IN MLADÁ BOLESLAV

- As a rule, children start school at the age of 6 (must be 6 years old before the time of enrollment).
- Compulsory schooling lasts for 9 years. It is good to know that the last year of pre-school education is compulsory, which is not included in those 9 years.
- Children are divided into classes according to their age, from 1st to 5th grade into the so-called 1st level, and from 6th to 9th grade into the so-called 2nd level.
- The school year starts on September the 1st and ends on June the 30th (during working days).
- The establisher of primary schools is usually the municipality or town (also a private entity, the state or a church), while secondary schools are established by individual regions.
- Primary education is compulsory by law and in case of non-compliance with the law, the procedure is according to the legislation in force.

Vacations, Public Holidays and Headmaster's Leave

The Czech school system respects the state-recognized holidays – non-working days. The school attendance during those days can also be cancelled. The headmaster has the right to declare a “headmaster’s leave” and order children not to attend school. This leave is ordered for serious operational reasons and must be approved by the school’s establisher.

The main school vacation in the Czech Republic is two months long (July, August). The next is Christmas (from the 23rd of December usually to the 3rd of January). Spring vacation does not have a fixed day. It is moving every year as the regions take turns, lasting one week during February or March. Each region alternates weeks in which children do not attend their school and can spend this time, for example, playing winter sports or relaxing.

School Absence

School attendance is compulsory in the Czech Republic. A child is obliged to attend every school day, including distance education if it is mandated by the school or the state.

Excusing absences is the responsibility of parents, who must notify the school if their child is going to be or is absent. The school may require a doctor's note in justified cases. Excuses are governed by the school rules of each school and failure to do so may be grounds for disciplinary action (e.g. reprimand).

School Report Card

A report card is a record of a pupil's grades over a certain time-period. The report card is always issued at the end of each term – end of January and end of June - at school days or around respective dates. The assessment of a pupil's work and knowledge can be quantitative - expressed as a mark on a scale of 1 to 5, with 1 being considered being the best value and 5 being considered poor, the worst value. Another option is a verbal assessment, where the teacher lists strengths and weaknesses, describe the pupil's work in words and, where appropriate, suggests recommendations. The headmaster decides on the method of assessment.

Keep the report card stored carefully! Do not throw it away.

What Is Expected of Children in Primary School?

Among others, the most basic duties of a pupil include:

- regular daily attendance,
- fulfillment of school obligations,
- full cooperation with adults and classmates
- to be equipped with recommended school supplies,
- to do homework,
- ethical and considerate behavior in accordance with good manners.

What Is Expected of Parents?

- daily check of the online system through which the school communicates with parents, called „Bakaláři“,
- supervising the completion of homework and other assigned tasks,
- cooperation with the class teacher and other teachers and school management,
- timely notification on pupil's absence and other timely communication,
- purchase of basic supplies for the pupil,
- ethical and considerate behavior in accordance with good manners.

The Role of the Teacher, Different Teachers Roles

In the Czech school system, the teacher is considered both an authority and a guide through education.

A class teacher is responsible for his/her class and deals, for example, with students' absences and disciplinary offences. Class teacher is the main contact person for pupils and parents. Other teachers only come to the class to teach their specific subject.

Parents-teachers Conferences

Parents-teachers Conferences are meetings between parents and teachers. They are usually held twice a year but may be more frequent in the first or second grade. They are compulsory, and it is not the teacher's responsibility to call parents to a make-up meeting or to provide information to a parent who fails to attend.

In exceptional circumstances, the teacher may request a face-to-face meeting outside of these class meetings. The teacher may also work with the Integration Coordinator, CPIC, CIC or others to find an interpreter who can attend the meeting with the parent.

At parent-teacher conferences, parents are given information about the pupil's progress as an individual, about the class team, about how the children get along, what needs to be improved, what the parents have to provide/purchase, what events are planned, etc.

At the second level, each subject is usually taught by a different teacher. These teachers either go to each classes' meetings and inform parents about the pupils. Or the parent goes to the teacher's base-room and asks about the progress of his/her child.

Unethical Behavior

The school rules and the Civil Code define what form of behavior is permissible and what is already against the school's internal regulations or beyond the law. Any transgression against the school rules can be judged by, for example, a reduced grade, a note, a reprimand, or other educational measure. Plagiarism, lying, cheating, bullying, inappropriate behavior towards a teacher or classmate are considered unethical.

How Does the Timetable Work and What Is It?

Teaching in Czech schools is planned and organized into subjects such as Czech language, Mathematics, Physical education, etc. When and which subject will be taught is scheduled in the so-called "timetable". Each pupil therefore knows exactly which lesson or which subject they will attend and can prepare in advance. According to the timetable, the pupils also plan which textbooks and notebooks they must bring to school each day.

At the first level, the timetable is usually simpler, with pupils having between 4 and 5 lessons in the morning block. From about grade 3 onwards, an afternoon block of lessons is added, usually once or twice a week. Also, pupils do not choose any elective subjects, but the lessons are precisely determined, and all pupils pass them in the same way. At the second level, more hours are thought, the afternoon lessons are more frequent, and pupils also have the opportunity to choose some subjects they are interested in.

At the first level, most subjects are taught by one teacher. At the second level, when the number of individual vocational subjects increases, each subject is usually taught by a different teacher. However, each class remains with the same class teacher, who is usually the same in grades 1 and 2, then grades from 3 to 5 and then grades from 6 to 9.

Further Education after the Compulsory One

Once the day's timetable is completed, no further compulsory teaching follows, and the school is

not obliged to provide it. For further education, there are usually paid courses from independent organizations available such as language schools or pupils may attend leisure activities, whether they're sports, music or art.

The Difference between 1st Level and 2nd Level

Primary school attendance is divided into two levels. The first is from 1st to 5th grade, and the second is from 6th to 9th grade. The differences are, among others, in the length of the school-day, the subjects taught, their content, or choice of elective subjects.

Online Platform called „Bakaláři“

It is an online module or platform through which communication between the school, parents and student takes place. Parents and school can send and read messages through it. From the second grade onwards, it usually replaces the paper student grade book.

It is the duty of every parent and pupil to CHECK this communication channel EVERY DAY. Inability to use or open Bakaláři is no excuse.

Here you will find, among other things, information about:

- functioning of the school,
- changes in the daily timetable,
- important messages that may relate to the following day,
- marks,
- homework,
- information about class meetings and more.

At the beginning of the school year, parents and children are given user data and passwords. They can download the application to their mobile phone and have it available at all times. If you lose this information, you can contact the school secretary for a new one.

Breaks

Each lesson is followed by a 10-minute break. After two lessons (each 45 min long), the so-called big break begins, which is primarily intended for refreshment. Pupils can also use the break to use the toilet. However, if children need to use the toilet immediately during lessons, they can register and request short release from the lesson.

Lunch

Each school has a school canteen where children can sign up for lunches. Lunches are partly subsidized by the state and partly paid for by parents. An application form is usually available in the school canteen office. The parent should arrange what is known as a Direct Debit or in exceptional cases, monthly payments can be made in cash.

Payments to the School

At the beginning of the school year, a certain amount of money is required to be sent to the school's bank account (usually between 100 to 500 CZK). This money is used to cover the price of workbooks, some school supplies and class events.

Role of the *Integration Coordinator for Foreigners*

This position is gradually being established in primary schools in Mladá Boleslav and the surroundings. At the moment, it's available at 3rd, 8th and 9th Elementary School.

Main work of *the Integration Coordinator for Foreigners* is:

- to help pupils to enroll and give them information about the school and a foreign language

brochure in their native language if possible (the brochure is translated into Ukrainian, Russian, Vietnamese, English, Mongolian, Bulgarian)

- to set a plan for the child's integration together with the parents and the school and review it every 3-6 months,
- to help to find tutoring and assist in finding Czech language courses either directly at school or through partner organizations,
- to offer events such as suburban vacation camps with language program,
- to help with finding leisure activities and registering your child,
- to arrange, if necessary, in cooperation with the parents, a visit to a psychological counselling center to provide the child with support measures to facilitate the learning process,
- to act as an additional contact person (the first is the class teacher) for a child with a different mother tongue,
- if possible, to meet with the child, help in the classroom or with homework and Czech language if time permits.

If the school does not provide an Integration Coordinator for Foreigners, each school has a designated person, either from the school management or one of the teachers, who is responsible for the children of foreigners and helps them in the integration process.

School Counselling Centre

In most cases, it's a group of people consisting of a school psychologist or school special educator, an educational counsellor, a school prevention methodologist, assistant special educators and school management.

The aim of their cooperation is to provide a suitable and safe environment for education, working with individuals and groups who need help, including gifted children. Together they draw up a prevention plan, innovate the approach to prevention, help to plan the training of teachers in this area, monitor the current situation at the school, cooperate with institutions, providing professional assistance in the field of prevention and substance abuse and other activities.

What Is the Role of the Psychologist?

The school psychologist carries out consultation, counselling, diagnostic, methodological and informative activities, works with pupils, teachers, and parents.

The school psychologist cooperates with specialized schools and other counseling facilities, especially PPP and SPC, as well as with health and social institutions and child and youth care authorities. In what situations can you contact a school psychologist?

Pupils can contact the psychologist when:

- you don't get along with your classmates and don't know how to deal with it,
- when you're not learning as well as you'd like,
- when something personal is bothering you (fear, illness, stage fright, conflicts),
- when you're worried about something at home that you have no one to tell,
- when you feel alone among your peers,
- when you need to talk about anything,
- when you are unsure about your career choice or further studies.

Parents, you can contact a psychologist:

- if there's something wrong with your child's upbringing,
- when communication breaks down between you and the class teacher,
- when you feel your child isn't doing as well at school as they should,
- when there are changes in your family that may affect the child's psyche (divorce, illness ...),
- if your child has any problems (worried, complaining about friends, silent, etc.),
- you are in a crisis situation (change of environment, illness, divorce...).

Consultations can make a big difference while providing help, relief and possible solutions.

Support Measures Based on the Decision of the Psychological Counselling Center

Some schools have the option of offering children with foreign mother tongue a visit to psychologist, where the children may be granted so-called "support measures". Those measures will provide and give the school necessary permissions to ensure more suitable conditions for their studies, such as more time for tests, the possibility of verbal assessments and other appropriate measures to help the child in their studies. Support measures are not about stating a diagnosis or labelling the child, but about fully using the system that offers wider possibilities for help based on professional advice.

What Does an Ordinary Day at School Look Like?

1. Arrival to school, to cloakroom of classroom, change of clothes and shoes.
2. Children go to their classrooms and prepare for their first lesson/session.
3. Each lesson is 45 minutes long.
4. After two lessons there is so-called a big or snack break.
5. After two or three more lessons there is a lunch break (one hour long).
6. This is the end of the school-day. From the 3rd grade onwards, the lessons usually continue twice a week in the afternoon (about two extra lessons).

HOW TO REGISTER OR ENROLL A CHILD IN PRIMARY SCHOOL?

Every child who reaches the age of 6 must go through the enrolment process in a primary school. “Enrolment” is an official and ceremonial event during which the decision whether a child is mentally and socially ready to start compulsory schooling, is made.

The first step in the enrolment is to complete the *Application for Admission of a Child to Primary Education* and the *Application for Enrolment in Year 1 for the 2021/2022 school year*. These applications are available for download on the schools’ websites, or you can collect them in person from the school you are interested in. Applications must be submitted to the school of your choice by a certain date. Enrolment takes place in April.

The second step takes place at school, where the children demonstrate their skills.

When a child enrolls during the school year, the *Transfer of Pupil from Another School Application / Application for Year Enrolment - Questionnaire* must be completed and submitted to school with the documents required.

GLOSSARY OF COMMONLY USED TERMS

Žákovská knížka/Student Book

It is an official document, often a paper notebook, intended mainly for the continuous recording of school results - grades. In addition, teachers can write into them messages to parents, information about the depletion of funds, the need to pay for school activities such as trips, etc. The teacher can also proceed to write a “note” (in Czech “poznámka”, which is information for the parents about a certain type of inappropriate behavior or attitude of the pupil and ask for correction. The form of a paper notebook is nowadays used mainly in the first and second grades.

Úkolníček/Homework Notebook

This is often a small-format paper notebook that students are asked to purchase from a stationery store. Pupils write down the tasks they are required to complete and hand in by the deadline.

Rodičovská rada/Parent Council

The Parent Council is an independent body, represented by representatives from the parents of pupils in each year group. It manages funds provided by parents or sponsors, keeps proper records of income and expenditure, and publishes them regularly.

Žákovský nebo školní parlament/Pupils' or School Parliament

It is a group of elected pupils from a given school. It is an unwritten rule, that each class sends two representatives to the parliament. These gather information from their classmates about what needs to be improved in the school. At regular meetings of the parliament, for example every two weeks or once a month, they discuss how to meet these ideas. They then regularly inform their classmates about their activities.

Družina/ School Day Care

It is the name given to an organized group of children who are led under professional guidance before the start and after the official schedule. The children in this group spend time with a so-called tutor or a group leader. Together they prepare homework, play, go for walks, etc. It is especially for families of those parents who must work before school starts and cannot pick up their children immediately after school. There is a minimal fee for the group attendance.

Parents can decide whether to put their child in the so-called morning playgroup (usually starting at 6:30 am, depends on each school) or afternoon playgroup (starting after school and ending at about 4 pm) or both. Filling out a simple application to enroll is required. Parents can do this at enrollment or first-class meetings or download an application from the website. The school day care is only for children from 1st to 3rd grade, some schools also offer after-school clubs for older pupils.

Svačiny a přestávky/Snacks and Breaks

Between each lesson, children take a 10-minute break. After two lessons there is a big break which lasts 20 minutes. During this break, the children have the opportunity to have a snack, which is usually home prepared. It is essential that children bring snacks every day, including sufficient amount of fluids.

Tělesná výchova/ Physical Education

It is one of the subjects included in the curriculum. The child is required to bring appropriate clothing, which is usually gym shoes with white soles, shorts and a t-shirt.

In the winter months, it can require a warmer option.

Outdoor School, Ski Course and Trips

The school provides the opportunity to participate with the class on trips (one-day or multi-day), ski course or outdoor school. These events are paid by parents.

INDIVIDUAL PRIMARY SCHOOLS IN MLADÁ BOLESLAV

1. ZÁKLADNÍ ŠKOLA

Komenského náměstí 76, 293 01 Mladá Boleslav,
příspěvková organizace

School psychologist	Mgr. Marcela Drázká	marcela.drazska@centrum.cz	+420 724 233 430
School characteristics	The school is classically divided into first and second grade. In 2019, a new school annex was opened to house a chemistry laboratory, chemistry, computer, and language classrooms. Our school supports pupils who are focused on hockey.		
Does the school offer tutoring?	After prior agreement with the teacher.		
Does the school offer tutoring Czech for foreigners?	Not at present, only according to the individual needs of the pupil. However, the Integration Coordinator can help arrange courses in cooperating organizations.		

ADDITIONAL INFORMATION PROVIDED BY THE SCHOOL

How can you enroll your child in this school?

1. Fill in the online application form on the website in the section *Škola - dokumenty - formuláře* - there are applications for pupil admission, application for admission to primary education.
2. Contact the Headmaster
3. Appear for enrolment

Enrolment dates are announced by the school via the website, but only for the first grade. If a pupil is about to join a class other than Year 1, you must contact the Headmaster. The enrolment notice is issued by the Statutory City of Mladá Boleslav and is available on the city's website.

Are there clubs at school?

Offer may change each school year, but as usually we offer following:

1st level:

- „Malý šikula“ – technical skills club
- Literary-dramatic club
- English for kids
- Logic and board games club
- Pottery club
- Sports club
- „Skillful hands“ club
- Basketball

2nd level:

- Logic and board games club
- Pottery club
- Planned in the future - Basics of robotics club

Would you like to make an appointment at the school?

Contact the school secretary - Hana Balounová, sekretariat@zsbene.cz.

If you need to, you can also contact organizations CIC or CPIC or the Integration coordinator, who will help you to arrange the support of an interpreter.

What if the child needs to visit the doctor? - inform the class teacher

What if we need to leave country for some time? - it is necessary to inform the class teacher and the headmaster - fill in the request for release, see the school website – forms. Arrange with the class teacher the list of the learning material or exercises to be practiced with the children away from school

What if the child is sick? – it is necessary to inform the class teacher

Other information?

If a child is unable to attend Physical education class for any reason, a request for exemption from PE must be made (see the form section of the school website)

What to pay for at school? (usually similar at most of schools)

- Lunch meals – via bank transfer
- School day care – usually available at schools until the end of the 3rd grade
- Selected textbooks and notebooks
- Class fund - a class can have a fund and use the money to finance trips. It is collected in cash and is in responsibility of the class teacher
- Selected clubs – only within the school offer
- Outdoor school – once a year the class take part in recreational stay in nature
- School trip
- Ski course – in case of interest, skiing course in the mountains is available
- Photographer - a group photo at the end of the school year, or a Christmas photo (parents sign a GDPR consent form)
- The school always informs parents in advance how much, for what and how to pay.

- French language
- Athletics club

How to arrange an appointment at school?

If your child is already our pupil, arrange an appointment through Bakaláři module or email particular person to make an appointment with (surname@8zsmb.cz). If your child is not the pupil of the school yet, use the contact details for the school management on the school website: <https://www.8zsmb.cz/kontakty>.

What if the child needs to visit the doctor?

Simply contact the class teacher to inform them when and what time you need to pick up your child in person or, conversely, to bring the child to school later. After a doctor's visit, as after any absence, you must submit the excuse note or medical certificate to class teacher or send notification through module Bakaláři.

What if we need to leave country for some time?

Make a written request to the school administration to release your child.

What if my child is sick?

Notify the school within three working days via Bakaláři or by email.

School characteristics	A classic school located in a housing estate that strives to keep up with modern technology and approach to education.		
Does the school offer tutoring?	According to the individual needs and interest of the pupils.		
Does the school offer tutoring Czech for foreigners?	We do not offer Czech language courses at our school. If you are interested in taking a course, please contact the Integration coordinator, who offers and connects with cooperating organizations offering such courses.		

How can you enrol your child in this school?

1. Call or send an e-mail - see the contact information at www.zspastelka.cz - to arrange an appointment.
2. Participate in enrollment day for 1st grade (it always takes place in April).

What makes the school interesting or different?

We cooperate with sports clubs FC Mladá Boleslav and Basketball Pastelka.

What is our emphasis?

We focus on interpersonal relationships, adherence to agreed rules, responsibility for oneself.

Are there clubs at school?

Only within the School Day care. In the building is also situated a Primary art school with a wide range of leisure activities.

How to arrange an appointment at school?

An appointment at the school can be arranged via e-mail or phone. Contact information of the school management and the teaching staff can be found on the school website:

zspastelka.cz/vedeni-skoly

zspastelka.cz/ucitelsky-sbor

or you can contact the school via phone.

What if the child needs to visit the doctor?

The parent informs the class teacher of visit in writing in the student's book. During the 1st level, the child must be picked up in person at school. At the 2nd level, children are released at the required time and may leave on their own.

What if we need to leave country for some time?

Submit a written request to the Headmaster's office (download the form from the website).

What if my child is sick?

Within three working days notify the school by email or call 326 327 623. After the absence is over, the excuse note must be written in the student's book.
